THE ENVIRONMENTAL PROTECTION AGENCY

Coastal Nonpoint Pollution Control Program: Finding That Oregon Has Failed to Submit an Approvable Coastal Nonpoint Pollution Control Program.

AGENCY: National Oceanic and Atmospheric Administration, U.S. Department of Commerce, and the U.S. Environmental Protection Agency.

ACTION: Notice of Finding That Oregon Has Failed to Submit an Approvable Coastal Nonpoint Pollution Control Program.

SUMMARY: The National Oceanic and Atmospheric Administration (NOAA) and the U.S. Environmental Protection Agency (EPA) announce the federal agencies' finding that Oregon has failed to submit an approvable Coastal Nonpoint Pollution Control Program. Prior to making this finding, NOAA and EPA invited public input on the federal agencies' proposed decision and the reasoning for such a decision (see December 20, 2013, Federal Register Notice 78 FR 77104). The federal agencies also announce their publication of a response to the comments received regarding the proposed decision. The Coastal Zone Act Reauthorization Amendments (CZARA) directs states and territories with coastal zone management programs previously approved under Section 306 of the

Coastal Zone Management Act to develop and implement coastal nonpoint programs, which must be submitted to NOAA and EPA for approval.

FOR FURTHER INFORMATION CONTACT: Allison Castellan, Stewardship Division, (N/ORM3), Office for Coastal Management, NOS, NOAA, 1305 East-West Highway, Silver Spring, Maryland, 20910, phone (301) 713-3155, x125, email Allison.Castellan@noaa.gov.

(Federal Domestic Assistance Catalog 11.419 Coastal Zone Management Program Administration)

SUPPLEMENTARY INFORMATION: NOAA and EPA (federal agencies) find that Oregon has failed to submit an approvable coastal nonpoint program. Section 6217(a) of the Coastal Zone Act Reauthorization Amendments (CZARA), 16 U.S.C. section 1455b(a), requires that each state (or territory) with a coastal zone management program previously approved under section 306 of the Coastal Zone Management Act must prepare and submit to the federal agencies a coastal nonpoint pollution control program (coastal nonpoint program) for approval. CZARA provides that the failure by a state to submit an approvable program results in the federal agencies withholding certain grant monies. State coastal nonpoint pollution control programs were to be submitted to the federal agencies for approval by July 1995, and Oregon submitted its program by that date. The federal agencies provided public notice of and invited public comment on their proposal to approve, with conditions, the Oregon program (62 FR 6216). The federal agencies approved the program by letter dated January 13, 1998, subject to the conditions specified in the letter (63 FR 11655). All of the conditions identified at that time must be

met for Oregon to have a fully approvable coastal nonpoint program. The current action addresses only the additional management measures related to forestry.

On December 20, 2013, NOAA and EPA announced their intent to find that Oregon has failed to submit an approvable coastal nonpoint program in the Federal Register and provided a 90-day public comment period on the proposed decision (78 FR 77104).

Over time, Oregon has made incremental changes to its program in order to satisfy the identified conditions. Recent submissions from Oregon demonstrate that Oregon has met the conditions for new development and on-site disposal systems. As explained in the decision document containing the rationale for the federal agencies' decision, however, the federal agencies find that Oregon has not yet submitted a fully approvable program that meets all conditions, and consequently, the federal agencies find that the Oregon has failed to submit a program that is approvable under CZARA. The decision document describes why Oregon's program has not yet satisfied the remaining conditions that relate to controlling adverse water quality impacts from forestry.

The decision document, response to comments, public comments received, and other supporting information used to make the finding announced here are available on the NOAA website at <http://coast.noaa.gov/czm/pollutioncontrol/>. Hard copies are available at: U.S. Environmental Protection Agency, Oregon Operations Office, 805 SW Broadway, Suite 500, Portland, Oregon, 97205, Tom Townsend, phone (503) 326-3250.

THE ENVIRONMENTAL PROTECTION AGENCY

Coastal Nonpoint Pollution Control Program: Finding Determination That Oregon Has Failed to Submit an Approvable Coastal Nonpoint Pollution Control Program.

AGENCY: National Oceanic and Atmospheric Administration, U.S. Department of Commerce, and the U.S. Environmental Protection Agency.

ACTION: Notice of Finding Determination That Oregon Has Failed to Submit an Approvable Coastal Nonpoint Pollution Control Program.

SUMMARY: The National Oceanic and Atmospheric Administration (NOAA) and the U.S. Environmental Protection Agency (EPA) announce the federal agencies'

findingdetermination that Oregon has failed to submit an approvable Coastal Nonpoint Pollution Control Program. Prior to making this finding-determination, NOAA and EPA invited public input on the federal agencies' proposed decision and the reasoning for such a decision (sSee December 20, 2013, Federal Register Notice 78 FR 77104). The federal agencies also announce their publication of a response to the comments received regarding the proposed decision. The Coastal Zone Act Reauthorization Amendments (CZARA) directs states and territories with coastal zone management programs previously approved under Section 306 of the Coastal Zone Management Act to develop

and implement coastal nonpoint programs, which must be submitted to NOAA and EPA for approval.

FOR FURTHER INFORMATION CONTACT: Allison Castellan, Stewardship Division, (N/ORM3), Office for Coastal Management, NOS, NOAA, 1305 East-West Highway, Silver Spring, Maryland, 20910, phone (301) 713-3155, x125, email Allison.Castellan@noaa.gov.

(Federal Domestic Assistance Catalog 11.419 Coastal Zone Management Program Administration)

SUPPLEMENTARY INFORMATION: NOAA and EPA (federal agencies) find that Oregon has failed to submit an approvable coastal nonpoint program. Section 6217(a) of the Coastal Zone Act Reauthorization Amendments (CZARA), 16 U.S.C. section 1455b(a), requires that each state (or territory) with a coastal zone management program previously approved under section 306 of the Coastal Zone Management Act must prepare and submit to the federal agencies a coastal nonpoint pollution control program (coastal nonpoint program) for approval. CZARA provides that the failure by a state to submit an approvable program results in the federal agencies withholding certain grant monies. State coastal nonpoint pollution control programs were to be submitted to the federal agencies for approval by July 1995, and Oregon submitted its program by that date. The federal agencies provided public notice of and invited public comment on their proposal to approve, with conditions, the Oregon program (62 FR 6216). The federal agencies approved the program by letter dated January 13, 1998, subject to the conditions specified in the letter (63 FR 11655). All of these ~~remaining~~ conditions identified at that

time must be met for Oregon to have a fully approvable coastal nonpoint program. The current action addresses only the additional management measures related to forestry.

On December 20, 2013, NOAA and EPA announced their intent to find that Oregon has failed to submit an approvable coastal nonpoint program in the Federal Register and provided a 90-day public comment period on the proposed decision (78 FR 77104).

Over time, Oregon has made incremental changes to its program in order to satisfy the identified conditions. Recent submissions from Oregon demonstrate that Oregon has met the conditions for new development and on-site disposal systems. As explained in the decision~~termination~~ document containing the rationale for the federal agencies' decision, however, the federal agencies find that Oregon has not yet submitted a fully approvable program ~~to that meets~~ all conditions, and ~~that consequently,~~ the federal agencies find that the Oregon~~State~~ has failed to submit a program that is approvable under CZARA. The ~~determination~~decision document describes why Oregon's program has not yet satisfied ~~one of the~~ remaining conditions that relates to controlling adverse water quality impacts from forestry.

Comment [HL1]: Could add a sentence acknowledging the states' progress in addressing MMs over time – e.g., provide the number with interim approval since 1998

Comment [BJ2]: Can Don or Allison add the number of MMs with interim approval since 1998? Thanks.

~~On December 20, 2013, NOAA and EPA announced their intent to find that Oregon has failed to submit an approvable coastal nonpoint program in the Federal Register and provided a 90-day public comment period on the proposed decision (78 FR 77104).~~
